§ 36-1. Declaration of policy.

It is hereby declared to be the policy of the Board of Trustees of the Village of Cold Spring to improve and protect property and life from fire hazards and health hazards, and to provide for the proper use of land so as to prevent unhealthful, hazardous or dangerous conditions ~~due to the accumulation of brush, grass, rubbish, weeds, debris or other material. By this chapter~~ from trees and woody shrubs, and due to the accumulation of brush, grass, rubbish, weeds, debris or other material. Properties within the Village must be kept clean and free from vermin and noxious weeds; be properly maintained; and kept

free of nuisances, hazards, debris and litter. Further, it is found and declared that by reason of lack of maintenance and progressive deterioration, certain properties have the further effect of creating blighting conditions that, if not curtailed and removed, will grow and impact the entire community. By reason of timely regulations and restrictions, the public health may be protected, blighted areas prevented and the desirability and amenity value of properties maintained. By this Chapter the Village Board seeks to regulate the removal and prevention of such dangers to health, life and property by requiring the owners of land to cut, trim or remove such hazards, and upon default thereof, cause the same to be done by the municipality and assess the costs against the real properties involved.

In the event that the Highway Department or the Code Enforcement Officer discovers a Dangerous Tree in the course of their duties, notwithstanding the absence of a written signed complaint, they shall report the same in writing to the Village Board at its next regularly scheduled meeting.

B. After considering the written report of the Highway Department or the Code Enforcement Officer, the Village Board, if it concurs that a Dangerous Tree exists based upon said report, shall so notify the owner of the land upon which the Dangerous Tree
