§64-1. Purpose and Public Policy**A. Preamble of 1976.**

Purpose. The Mayor and Board of Trustees of the Village of Cold Spring find that the village has a large number of buildings and improvements which faithfully reflect elements and characteristics of 19th Century Hudson River architecture. The Mayor and Board of Trustees recognize that the existence of many 19th Century buildings, especially along Main Street, Cold Spring, creates a unique architectural scheme which is well preserved and scenically located. The Mayor and Board of Trustees have witnessed the change or destruction of the architectural character of several buildings on Main Street which threatens the essential 19th Century character of the area. In 1976 the Mayor and Board of Trustees received a written report from James Marston Fitch, Professor of Architecture at Columbia University, New York, New York, which outlined the unique and distinctive architectural heritage of Cold Spring and suggests its preservation. The Mayor and Board of Trustees recognize further that preservation of Cold Spring's architectural character will promote pride in the heritage of the community and result in direct economic benefits to Cold Spring by uniformly preserving its distinctive character. Accordingly, the Mayor and Board of Trustees thereby created an Architectural and Historic District and hereby establish an Architectural and Historic District Review Board with power to review all changes in the exterior architectural features of improvements located within the District. [Amended 5-01-2018 by L.L. 2018-02]

B. 2018 Addendum to Preamble of 1976. The Architectural and Historic District also contains a number of significant, contributing buildings and improvements dating to the Early and Mid-Twentieth Century. These resources contribute to the evolving character of the Village of Cold Spring. Over time they have achieved their own architectural and historic significance and equally contribute to the unique and distinctive character of Cold Spring. [Added 05-01-2018 by L.L. 2018-02]

C. Findings and Enabling Authority. The Board of Trustees finds that there exist within the Village places, sites, buildings and improvements of historic or architectural significance, or uniqueness of exterior design or construction, which should be protected and preserved to maintain the architectural character of the Village, to contribute to the aesthetic value of the Village and to promote the general good, welfare, health and safety of the Village and its residents. Accordingly, pursuant to Article 5, § 96-a; Article 5-G, Article 5-J and Article 5-K, § 119-aa-dd of the New York State General Municipal Law; Article 14 of the New York State Parks,
